Set up a Google tag on your website

You recently viewed instructions on how to set up a Google tag on your website. We haven't found a Google tag on your website, so we're sharing these instructions with you.

Option 1: Install a tracking ID through your hosting service or commerce platform

Sign in to your website builder, web hosting service, or commerce platform and paste your tracking ID into the analytics section.

Option 2: Install a Google tag in your website code

Paste your Google tag before the closing </head> tag on every page of your website you want to track.

```
<!-- Google tag (gtag.js) -->
<script async src="https://www.googletagmanager.com/gtag/js?id=AW-17132565756"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());

  gtag('config', 'AW-17132565756');
</script>
```

Lastly, install an event snippet for each of your goals to measure website conversions

Copy the snippet below and paste it in between the <head></head> tags of the page(s) you'd like to track, right after the Google tag

```
<!-- Event snippet for Purchase conversion page -->
<script>
  gtag('event', 'conversion', {
    'send_to': 'AW-17132565756/MeYZCLmv9aEbEPzpuOk_',
    'transaction_id': ''
  });
</script>
```

Copy the snippet below and paste it in between the <head></head> tags of the page(s) you'd like to track, right after the Google tag

```
<!-- Event snippet for Subscribe conversion page -->
